Subject: Re: Corrections on the briefing document

I'll send a correction. Thanks.

Ron Hines, PhD, ATS

Hi Ron,

Things were just too rushed today... I don't know that it makes much of a difference but both the ditch water concentrates and the pure NBP2 were administered for 7 days. We went with this dosing regimen, btw, because it matched the one used by Chris Lau on other PFAS and we could therefore make comparisons.

I have attached the corrected version – changes italicized and in red in paragraphs 3 and 4 of the one you sent to us before you moved the paragraphs around in the final version.

Regards,

Neil
